**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 35 is rejected under 35 U.S.C. 102(e) as being anticipated by US  
2003/0190280 A1 to Shelton et al.

Paragraph no. 0037 in the Shelton et al. sets forth that manganese (the Applicants' "first material"), powdered sulfur (the Applicants' "second material, in powder form") and iron pyrite were inserted into a reaction chamber. Paragraph no. 0035 sets forth that the reaction was initiated with a barium peroxide charge that was ignited by a conventional fuse. The manganese and sulfur reacted together to form manganese sulfide.

Claims 36-54 have not been rejected under either 35USC102 or 35USC103 because the limitations of these claims are not taught or suggested by US  
2003/0190280 A1 or any of the other references of record.

### ***Response to Arguments***

The Applicants' arguments submitted with their Amendment filed on Aug. 16, 2007 with respect to the rejection(s) of the pending claims have been fully considered and are persuasive. Therefore, those rejections have been withdrawn. However, upon further consideration, a new ground(s) of rejection of claim 35 is made in view of US 2003/0190280 A1 to Shelton et al.

Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
